Hi Doug,

Certainly not try to be elusive or challenging but I am not sure what type of letter we would be sending...

Lauderhill's contract with Tyler has a specific line item called 'UB Meter Read Interface'. This is the solution used to interface to all major 3rd party AMI systems including meter reading products Neptune, Sensus, Badger, Aclara, Itron, Landis+Gyr, and more.

We have dozens of clients currently leveraging Neptune AMI technology in conjunction with our Utility Billing solution offering.

Hope this helps.

Phil Sharp
Strategic Account Manager

Good morning Phil --

Is there any letter that can be provided by Tyler stating that the software will interface with the Neptune system?

Thanks,
Douglas W. Downs

Doug can you obtain a letter or email from Tyler stating their system will work with the meters noted in herb's back from Neptune and Ferguson.
