Request Action:

To approve the resolution approving the revised Contract for Sale and Purchase and a Leaseback Agreement for the Property located at 2001 NW 49th Avenue, Lauderhill, Florida

Need Summary Explanation/ Background:

The subject property is located adjacent to our Water Treatment Plant, located at 2001 NW 49th Avenue and has been used with the owner's consent to support water facility services. There are several reasons why we believe it is essential to acquire this property. Firstly, the current above-ground propane gas storage poses a potential risk to our plant operations in the event of an accident. Florida Public Utilities has informed us that they have secured a replacement property within the city, which means that this property will no longer be needed for their services. Secondly, the property is located in a strategic location that will allow us to expand our water treatment capacity and meet the growing demand for water in our community. This expansion will help us ensure that our water supply remains reliable and safe for our residents.

Cost Summary/ Fiscal Impact:

\$1,800,000.00
