RE: Land Use Plan Amendment Application 25-LU-001 (3840 & 4031 Inverrary Blvd.)
Date: June 9, 2025 (June 24, 2025 Planning & Zoning Board Meeting)

The applicant (Hope Calhoun) represents the Petitioner, Aimee Craig Carlson (Director of Land Planning & Entitlement, Pulte Home Company, LLC), and has filed a Land Use Plan Amendment application. Figure 1 provides an aerial of the subject site (outlined in red) and contextual relationship to the built environment. The site is generally located between Rock Island Road to the east, Inverrary Boulevard West to the west, NW 44th St to the north, and the Middle River Canal to the south. The following information has been prepared for your consideration:

I. BACKGROUND INFORMATION

Requested Action

The Petitioner requests a proposed Ordinance granting a Land Use Plan Amendment (LUPA) amending the Future Land Use Designation for the property located at 4031 Inverrary Boulevard, amending approximately 18.525 gross acres from a Commercial Recreation Future Land Use designation to an Irregular (9 du/acre) Residential Future Land Use designation, identified as Pod 1 of the submitted application; and a proposed Ordinance granting a Land Use Plan Amendment (LUPA) amending approximately 112.835 gross acres from a Commercial Recreation Future Land Use designation to an Irregular (9 du/acre) Residential Future Land Use designation for the property located at 3840 Inverrary Boulevard, identified as Pod 2 – Pod 6. In total, the applicant requests amendments to the Future Land Use designation for approximately 131.36 gross acres of the 294.82-acre site. These changes would facilitate the development of a residential community containing 888 dwelling units and a public greenway/linear park. The following table details the gross acreage of each proposed residential pod:

Pod	Gross Acres	Number of Dwelling Units (Proposed)	Residential Density
1	18.525	80	4.6
2	14.138	108	7.8
3	25.296	181	7.2
4	35.798	261	7.5
5	15.531	138	9.0
6	22.074	120	5.5
Total	131.36	888	6.76

The subject property is situated within the Inverrary residential community, spanning approximately 294.82 gross acres. The site currently houses an inactive golf course, surrounded by multi-family apartment complexes and single-family homes.

Figure 1 (inserted below) is an aerial photograph highlighting the site's location (outlined in red), contextual relationship to the built environment, overall size of the site, and the site's proximity to the adjacent multi-family and single-family residential properties. The proposed land use is consistent and compatible with the built environment.

Figure 1 – Location Map (3840 & 4031 Inverrary Boulevard)

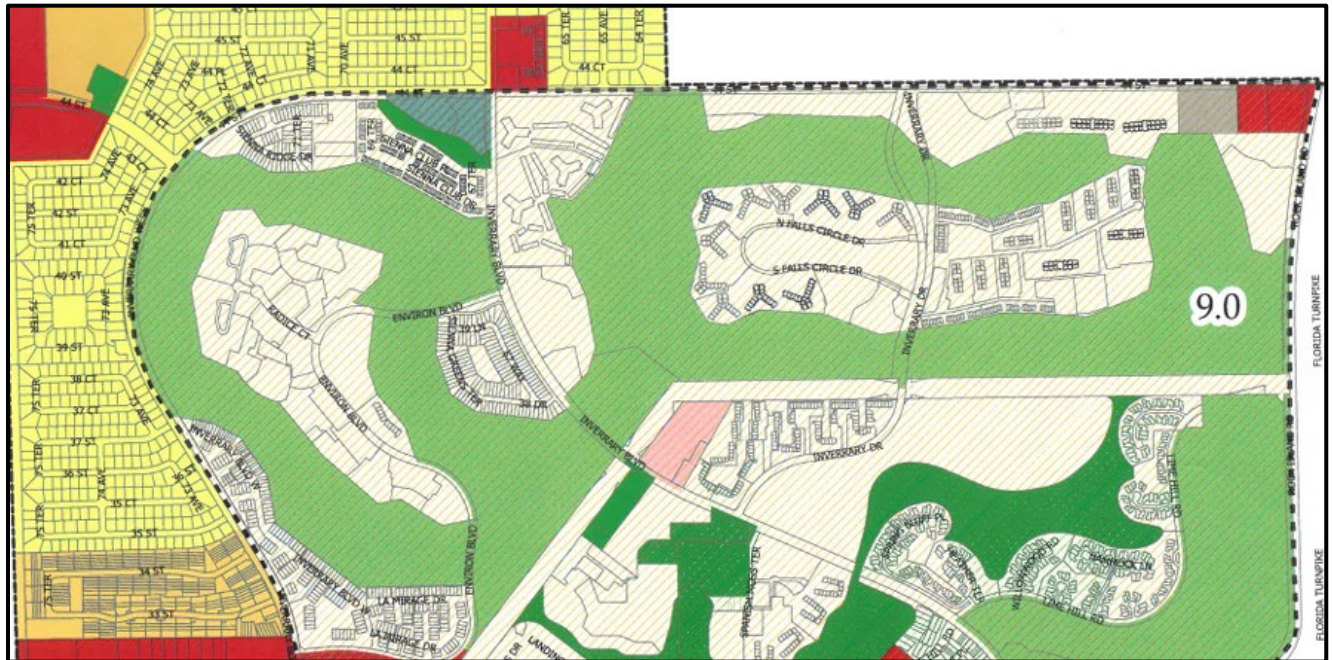

Figure 2 below provides a portion of the City of Lauderhill's Future Land Use Map which is referred to within the Future Land Use Element of the Comprehensive Plan. The purpose of the Future Land Use Element is to designate future land use patterns as reflected in the goals, objectives and policies contained within the City of Lauderhill's Comprehensive Plan.

Figure 2 further depicts that the subject site is adjacent to multiple parcels with an Irregular (9) Residential Land Use designation. The Irregular Dashed Line Area (9 dwelling units per acre) has been illustrated on the County Land Use Plan since 1989. In addition, to the west and north the subject site is adjacent to sites with a Low (5) Residential Land Use designation. Along the south, the site is adjacent to a canal and further south properties with an Irregular (9) Residential, Recreation - Open Space, and Office Park land use designations.

Land Use/Zoning:

Existing Use(s):	Inactive Golf Course
Existing Future Land Use Designation:	Commercial Recreation (Broward County) Commercial Recreation (City of Lauderhill)
Proposed Future Land Use	Irregular Residential (Broward County)

	Irregular (9) Residential (City of Lauderhill)
Existing Zoning Designation:	Commercial Recreation

III. DEVELOPMENT HISTORY

According to aerial photography, the subject properties remained vacant and undeveloped until 1970, when the land was cleared and construction activity became visible. The Broward County Property Appraiser first recorded development on the properties in 1973. By 1993, City directories associated the site with the Clubs of Inverrary, which continued to operate as a golf and country club through 2020. The country club ultimately closed in June 2020 and is no longer open to the public.

IV. PLANNING ANALYSIS

As stipulated in Objective 1.2 of the Future Land Use Element of the City of Lauderhill Comprehensive Plan, the Planning and Development Division has reviewed the proposed request pursuant to the following considerations:

1. Policy 1.2.1 Concurrency
2. Policy 1.2.2 Wetland Resources
3. Policy 1.2.3 Community Redevelopment Areas (CRA)
4. Policy 1.2.4 Compatibility
5. Policy 1.2.5 Historic Resources
6. Policy 1.2.6 Public Schools
7. Policy 1.2.7 Transportation Facilities
8. Policy 1.2.8 Industrial Uses

Additionally, the Planning and Development Division has reviewed the proposed request for consistency with the applicable Broward County Land Use Policies.

Based upon its review, staff finds the proposed amendment to the Future Land Use Map to be generally consistent with the above considerations. As such, staff recommends approval of the Land Use Plan Amendment application request.

A. Pre-application conference

LDR Article IV, Part 1.0., Subsection 1.3.1 addresses the optional pre-application conference. It provides for the Applicant to meet with Division staff to discuss the development review process, the type of review required (whether major or minor), and to be informed of which other City staff members to confer with about the application. The applicant attended a pre-application meeting with City Staff on January 11, 2024, and a subsequent Development Review Committee meeting on April 15, 2025.

B. Zoning requirements

The existing Commercial Recreation zoning district aligns with the current Commercial Recreation Future Land Use designation. The applicant intends to submit a rezoning application to request a district compatible with the Future Land Use designation concurrently with the site plan application.

C. Allowable land uses.

Existing Future Land Use Designation – Policy 1.1.10 speaks to the intent of the Commercial Recreation Future Land Use Designation:

POLICY 1.1.10 COMMERCIAL RECREATION

Provide areas to accommodate major public and private commercial recreation facilities, including golf courses and commercial recreation associated with structures or indoor facilities, which offer recreational opportunities for the permanent and seasonal residents of the City of Lauderhill and Broward County.

Subpolicy 1.1.10.1 stipulates what uses are allowed within the Commercial Recreation Land Use Designation.

SUBPOLICY 1.1.10.1 ALLOWABLE USES IN THE COMMERCIAL RECREATION FUTURE LAND USE DESIGNATION

The following uses are allowable in the Commercial Recreation future land use designation:

- 1. Outdoor and indoor recreation facilities, such as stadiums, bowling alleys, and golf courses.*
- 2. Accessory facilities, such as restaurants, pro-shops, and concessions, which are an integral part of and supportive of the primary commercial recreation use, not including residential uses.*
- 3. Hotels, motels, and similar lodging ancillary to the primary commercial recreation use.*

Proposed Future Land Use Designation – Policy 1.1.1 speaks of the Intent of the Residential Future Land Use Designation including the Irregular (9 du/acre) Residential Future Land Use Designation.

POLICY 1.1.1 RESIDENTIAL USES

Provide for a variety of housing types and densities, which offer convenient and affordable housing opportunities to the City's permanent and seasonal population, while maintaining a desired quality of life and adequate public services and facilities.

SUBPOLICY 1.1.1.1 ALLOWABLE USES IN RESIDENTIAL FUTURE

LAND USE DESIGNATIONS

The following uses are allowable in residential future land use designations with dwelling unit density designated on the Future Land Use Map Series:

- 1. Dwelling units and accessory uses, including home occupations, pursuant to meeting the density requirements of Subpolicy 2.1.1.2.*
- 2. Community facilities designed to serve the residential area, such as schools, day care centers, nursing homes, and faith-based organizations, governmental facilities, and civic uses.*
- 3. Public utilities and facilities required to serve the residential area, including water and wastewater pump stations; water, wastewater, electric, gas, cable, and fiber optic transmission lines; other low intensity public utilities, not including solid waste transfer stations, resource recovery plants, wastewater treatment plants, electrical power plants and similar operations.*
- 4. Transportation facilities, including roadways, bikeways, pedestrianways, greenways, and other transportation uses, not including expressways, airports, and heliports.*
- 5. Hotels, motels, and similar lodging, pursuant to meeting the density requirements of Subpolicy 2.1.1.2.*
- 6. Special Residential Facilities Categories (1), (2), and (3), pursuant to meeting the density requirements of Subpolicy 2.1.1.2. and other applicable provisions as set forth in the Broward County Land Use Plan.*
- 7. Offices and neighborhood retail sales of merchandise or services are allowable, without the need to amend to Future Land Use Map Series and the Broward County Land Use Plan, subject to the allocation of commercial flexibility as set forth in Subpolicy 2.1.1.3.*
- 8. Recreation and open space, including golf courses, and recreational, civic, or cultural buildings ancillary to the primary outdoor recreational use of the site.*
- 9. Community gardens, both public and private, for the cultivation of fruits, flowers, vegetables, or ornamental plants, by more than one person or family.*
- 10. Telecommunication antennae and support equipment on buildings at least four stories or fifty (50) feet in height.*

D. Comprehensive Plan Requirements

Objective 1.2 Future Land Use Map Amendments states the following: “The City Commission may, from time-to-time, amend the future land use map, in a manner consistent with state and county laws and regulations”. As such, staff evaluated the application for consistency with Policies 1.2.1-1.2.8:

1. POLICY 1.2.1 CONCURRENCY

The Planning and Zoning Department staff shall recommend denial of any proposed Future Land Use Map amendment, which fails to meet the concurrency requirements of Policy 2.3.1

- The Applicant provided the necessary documentation to satisfy this policy.

2. POLICY 1.2.2 WETLAND RESOURCES

The City of Lauderhill shall consider the impacts of Future Land Use Map Series amendments on wetland resources in order to avoid and minimize such impacts to the maximum extent practicable.

- This policy **does not apply**, as there are no Wetlands on site.

3. POLICY 1.2.3 COMMUNITY REDEVELOPMENT AREAS (CRA)

Community redevelopment areas shall be identified within on the Future Land Use Element Data, Analysis and Inventory (DIA) section of the Comprehensive Plan.

- This policy **does not apply**, as the subject site is not within the CRA.

4. POLICY 1.2.4 COMPATIBILITY

The compatibility of existing and future land uses and the prevention of uses inconsistent with the community's character shall be a primary consideration in the review and approval of amendments to the Lauderhill Comprehensive Plan.

- The project is compatible with the surrounding land uses, as the amendment site is adjacent to multiple properties designated as Irregular (9) Residential land use. The requested Land Use Plan Amendment seeks to change the land use designation from Commercial Recreation to Irregular (9) Residential for the areas identified as residential pods, aligning directly with the land use designation of the existing developments and maintaining a density of 9 dwelling units per acre.
- As previously noted, the proposed development is consistent with the surrounding area, as the site will primarily consist of low- and medium-density residential dwelling units. Additionally, approximately 164.45 acres of the existing 294.82-acre abandoned golf course will be redeveloped to a new 18-hole golf course, along with a +/- 13.24 and +/- 0.84-acres will be developed as public parks.

5. POLICY 1.2.5 HISTORIC RESOURCES

The City of Lauderhill shall consider the impacts of Future Land Use Map Series amendments on historic resources.

- This Policy **does not apply** as there are no historic resources onsite.

6. POLICY 1.2.6 PUBLIC SCHOOLS

The City of Lauderhill shall consider the individual and cumulative impacts of Future Land Use Element amendments on existing and planned public elementary and secondary education facilities.

- A School Consistency Review Report is included within the application documents. The report states there is sufficient capacity in the applicable schools to meet the anticipated number of students generated by the project.

7. POLICY 1.2.7 TRANSPORTATION FACILITIES

The City of Lauderhill shall consider the individual and cumulative impacts of future land use map amendments on the existing and planned transportation facilities in Broward County.

- The portion of the amendment with the proposed land use designation of Irregular (9) Residential will result in 0 new trips as the amendment does not request additional dwelling units to the amendment site. The site is located within the Inverrary Dashed Line Area with a current allotment of 9,072 residential dwelling units. A total of 7,930 residential units have been allocated within the dashed line area, leaving 1,142 units available. The amendment site proposes a total of 888 dwelling units, therefore no additional trips will be created.

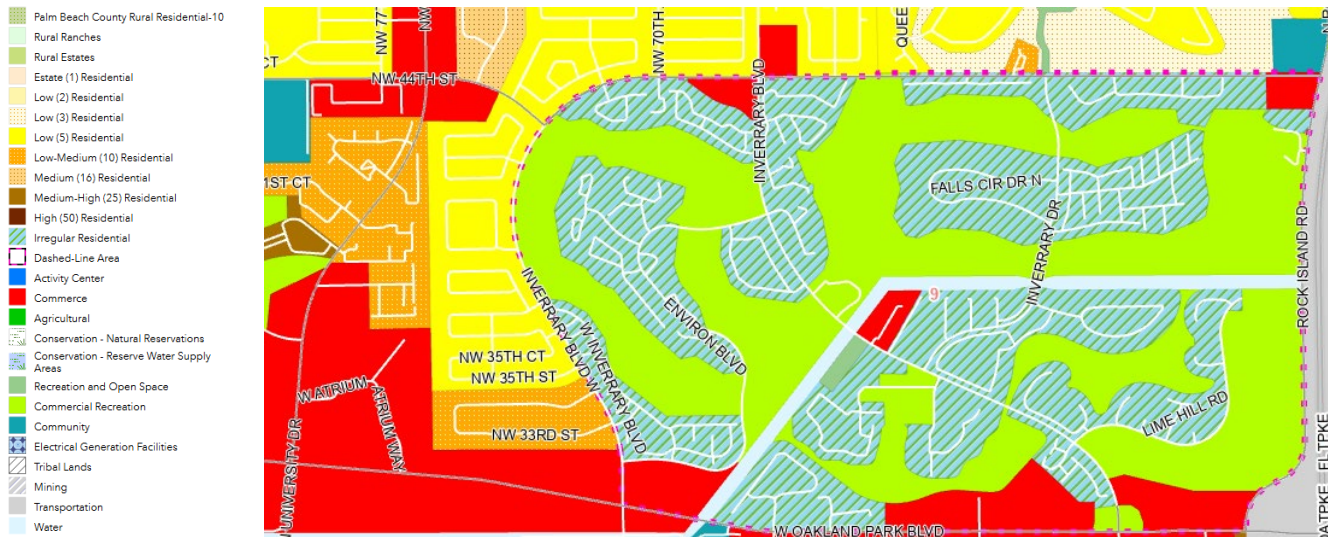

8. POLICY 1.2.8 INDUSTRIAL USES

Amendments to the Lauderhill Future Land Use Map proposing land use categories which permit Industrial land uses shall be discouraged, to the extent feasible, within wellfield protection zones of influence as identified by the Potable Water Supply Wellfield Protection Ordinance of Broward County.

- This policy does not apply as industrial uses are not part of this application.

The applicant is requesting a Future Land Use change that is would not be consistent with Broward County's Land Use Plan designation as shown in figure 3 below. Therefore, in addition to the City's Comprehensive Plan requirements, the applicant also refers to the following Broward County Land Use Policies as justification for the proposed Future Land Use amendment.

Figure 3 – Broward County Land Use Map

1. POLICY 2.10.2

The compatibility of existing and future land uses shall be a primary consideration in the review and approval of amendments to the Broward County and local land use plans. It is recognized that approved redevelopment plans aimed at eliminating or reducing blighted and deteriorating areas may appropriately promote the introduction of land use patterns in variance from existing land use patterns.

Applicant Justification - The Project will remove an abandoned golf course from the area and redevelop the Property with a use that is compatible with the surrounding neighborhood. The proposed land use designation of Irregular Residential (9) is consistent with the land use of the surrounding properties within the Dashed Line Area.

PZ Staff Analysis and Conclusion Policy 2.10.2 - The proposed land use designation is consistent with and compatible with the existing land use designations of the surrounding residential developments within the Inverrary neighborhood. Additionally, the applicant intends to retain the current Commercial Recreation land use designation for approximately 164.45 acres to accommodate the construction of a new golf course. The Master Site Plan also identifies areas designated for buffers and open space between the proposed developments and the existing properties which further enhances the project's compatibility with the surrounding developments.

2. POLICY 2.10.3

In order to prevent future incompatible land uses, the established character of predominately developed areas shall be a primary consideration when amendments to the Broward County Land Use Plan are proposed.

Applicant Justification - As stated previously, this Project will redevelop an abandoned golf course with a low-density residential development that is compatible with the density and residential uses of the surrounding area. The proposed Irregular Residential (9) land use designation is consistent with the surrounding residential land use designations and the low density residential development is compatible with the surrounding residential developments.

PZ Staff Analysis and Conclusion Policy 2.10.3 - The proposal is compatible with the surrounding land uses and will be designated under the Irregular (9) Residential land use category, aligning with the existing residential developments adjacent to the current golf course. The proposed development will feature a new golf course and introduce a public greenway park that will encircle a significant portion of the development's interior. Additionally, the project plans to include a variety of dwelling types, including single-family detached homes, single-family attached homes, and townhomes. This mix is consistent with the neighboring developments, which include both attached and detached single-family homes, townhomes, and multi-story apartment buildings. Therefore, staff finds that the proposal is in harmony with the established character of the surrounding area.

3. POLICY 2.14.2

To maintain those level of service standards identified within the Broward County Comprehensive Plan and local comprehensive plans, Broward County shall, prior to final action on amendments to the Broward County Land Use Plan, determine whether adequate public facilities and services will be available when needed to serve the proposed development.

Applicant Justification - The level of service analyses provided throughout this application confirm there is adequate capacity for all public facilities to service the Project.

PZ Staff Analysis and Conclusion Policy 2.14.2 - The applicant demonstrated that sufficient capacity is available for all public facilities. The detailed analysis is included in the attached application package.

4. POLICY 2.11.2

In considering amendments to the Broward County Land Use Plan, analysis regarding the availability of potable water supply shall include a determination of whether such supply will be available as per the applicable adopted 10-Year Water Supply Facilities Work Plan and Capital Improvements Element.

Applicant Justification - The level of service analysis and responses to the Potable Water section in this application include information from the City's 10 Year Water Supply Facilities Work Plan and Capital Improvements Element. The information provided demonstrates that there is sufficient capacity to service the Project for potable water.

PZ Staff Analysis and Conclusion Policy 2.11.2 - As stated in the applicant's response, the analysis provided demonstrates that there is sufficient capacity available for potable water. The attached letter from the City Engineer states the following *"the City confirms that potable water supply capacity and infrastructure are available for the referenced development project"*.

5. POLICY 2.11.4

The availability of sanitary sewer service, or plans to extend or provide such service within a financially feasible capital plan, adopted by a local government, shall be a primary consideration when amendments to the Broward County Land Use Plan for increased densities and intensities are proposed.

Applicant Justification - The level of service analysis and responses to the wastewater section of this application demonstrates there is sufficient capacity to service the Project for wastewater.

PZ Staff Analysis and Conclusion Policy 2.11.4 - The applicant provided a letter from Broward County's Water and Wastewater Engineering Division which states the North Regional Wastewater Treatment Plant (NRWWTP) has sufficient capacity to treat the wastewater demand from the proposed development.

6. POLICY 2.20.1

Adopt, implement and encourage land use provisions which promote the principles of the "Smart Growth" initiative seeking to maintain and create desirable and efficient communities for Broward County residents, visitors and economic interests including quality housing for all, integrated with excellent and sufficient public facilities and services, recreational opportunities and open space areas, and which maximizes preservation and conservation of natural resources.

Applicant Justification - This amendment will facilitate the redevelopment of an abandoned golf course with a new golf course and a residential community providing various housing options, including single-family, townhome, and duplex units. These communities will be integrated into the golf course with connectivity to the open space areas and the new +/- 13.24 and +/- 0.84-acre park, and a fitness trail in certain locations for the use of the new residents and the existing Inverrary condominium residents. This trail, which can be used by pedestrians and bike way connections, will further provide linkages to existing surround public walkways and sidewalks. These linkages support and provide connectivity to surrounding existing multi-modal opportunities such as to existing Broward County Transit locations. Additionally, the development will provide a new golf clubhouse for public use and a community facility parcel to allow the construction of a new fire station.

PZ Staff Analysis and Conclusion Policy 2.20.1 - The proposal addresses smart growth initiatives through various strategies. One of the strategies includes preserving open space as approximately 13.24 and 0.84 acres of public park areas are proposed throughout the community, and approximately 164.45 acres of the existing golf course will be reconstructed as a new golf course. The development also provides a range of housing types including detached single-family homes, attached single-family (duplex) homes, and townhomes. Finally, as stated by the applicant, trails provided within the future development will connect to existing public walkways and sidewalks and provide connectivity to existing multi-modal opportunities.

E. Land Development Code Requirements

a. The facts and opinions presented to the Planning and Zoning Board through hearings - This Development Review Report includes data and analysis and written findings of fact and conclusions to

support the Division's recommendation on the application and will be presented to the Board and entered into the record at its June 24, 2025 regular public hearing.

b. Amendment Procedures - The Division has placed the Future Land Use Map Amendment application on the Planning and Zoning Board regular public hearing agenda for the June 24, 2025 meeting. At that duly noticed public hearing, the Board will consider the application, this Development Review Report, all other substantial relevant evidence presented at the hearing, make a recommendation, and forward to the City Commission their recommendation on the application and all supporting evidence.

c. Amendment Notice - LDR Article IV., Part 2.0., Section 2.10., addresses public notice. Subsection 2.10.1. requires a Future Land Use Map Amendment to be published in a newspaper of general circulation in Broward County at least 10 days prior to the date of the hearing.

- I. Published Notice: Subsection 2.10.1., requires a Future Land Use Map Amendment to be published in a newspaper of general circulation in Broward County at least 10 days prior to the date of the hearing. The Division has caused a legal notice of the Planning and Zoning Board public hearing and the City Commission public hearings to be published in the Sun-Sentinel, a newspaper of general circulation within the City and Broward County, on or before June 14, 2025, or 10 days before the Board public hearing date. The application is included within the published legal notice for the public hearing. Proof of publication is on file with the Division and is included herein by reference. Thus, the Division concludes the application has been duly noticed consistent with the standards and requirements of LDR Article IV., Part 2.0., Section 2.10.
- II. Mailed Notice: Subsection 2.10.3., requires mailed public notice. Specifically, it provides all owners and occupants of property within 500 feet of the premises for which the development order is requested shall be given notice of the hearing by mail. On or before June 9, 2025, Staff provided the required mailed notice and a copy of the notice and a list of those persons noticed is on file with Staff and incorporated herein by reference. Consequently, the application is in conformance with this requirement.
- III. Posted Notice: Subsection 2.10.3 also requires the property be posted. Specifically, it provides that at least fifteen (15) days prior to the hearing, a sign shall be posted upon the property facing and visible from the street. The sign must be a minimum of three (3) square feet in size. Moreover, a notarized affidavit must be provided to Staff stating that the sign was posted on the appropriate day, that the sign remained posted for the duration of the time required for the posting, and that a photograph of the sign in place is submitted. An affidavit has been provided stating the property will be posted during the required periods and staff will confirm prior to or at the hearing that a photograph has been provided showing the property is posted. Thus, the application is in conformance with this requirement.

V. RECOMMENDATION/ACTION

Division recommendation - Staff recommends the Planning and Zoning Board enter into the record this Development Review Report and all other substantial competent evidence presented at the hearing, adopt the findings and conclusions contained herein, and forward the record to the City Commission with a recommendation that the proposed Ordinance be approved because the application is in compliance with Objective 1.2 Future Land Use Map Amendments, of the City of Lauderhill's Future Land Use Element within the Comprehensive Plan. The applicant shall be subject to any pre-existing dedications, restrictions, covenants, and easements that run with the land.

- A. Planning and Zoning Board Recommendation - The proposed Ordinance is scheduled on the agenda for the regular June 2025 Board hearing, held on June 24, 2025. The Planning & Zoning Board may make the following Actions:
- a. Adopt the findings and conclusions of Staff, and recommend approval to the City Commission for the Land Use Plan Amendment, as the Board finds that there is substantial competent evidence that the application is in compliance with the City's Comprehensive Plan.
 - b. Recommend denial to the City Commission, as there is not substantial competent evidence that the application is in compliance with the City's Comprehensive Plan.
 - c. Postpone this item to the next meeting, as additional information is needed, as requested by the Board during the discussion.
- B. City Commission Action - First reading of the proposed Ordinance is tentatively scheduled on the agenda for the July 14, 2025 City Commission public hearing. If recommended for approval by the City Commission, the Applicant will file their application with the County.
- The BCPC requires a cover letter from the City Manager that indicates that the City Commission, either by motion or by resolution, has voted to transmit the City's FLUM to BCPC for recertification. Included with the cover letter will be the existing future land use plan maps and the most recently adopted future land use plan map, updated flex zone tables and updated parks/recreation and open space tables.
