

City of Lauderdale Public Works Department

Irrigation Maintenance Division

Irrigation responsibilities:

127 Acres of City Parks

All City Buildings and Facilities

Over 362 zones of Median and Swale irrigation systems Citywide

The Department of Public Works Irrigation division is divided into the following sections: Parks, Medians and Building/Facilities.

We have developed maintenance Inventory of Commercial grade parts readily available for use.

Additional Personnel have been added to the Irrigation Maintenance Division:

- 1 Foreman
- 1 Irrigation Technician
- 1 Maintenance Worker I (Full-Time)
- 1 Maintenance Worker I (Part-Time)

These individuals routinely conduct wet checks, preventative maintenance, repairs, pumps and clock installations Citywide.

Connected systems to City Water mains where practical.

Implemented rust inhibitors to West Ken Lark and St. George Parks.
