Muslim Family Services

MFS has provided aid to **392** Children in Child Protective Services during the year 2022

## FATE (Foster Care Advocacy, Training and Education)

Our Foster Care Advocacy, Training, and Education (FATE) Program, founded in 2017 in Dallas, has grown into other states with nine liaisons serving different regions of the country. This program aims to provide a safe home for every Muslim child in foster care. We connect children in foster care to Muslim foster homes and with mentors in our communities. The program also guides and supports foster families by connecting them to proper resources and assisting them on their journey to help children in need. In partnership with child welfare agencies, we assist unaccompanied minors who arrived from Afghanistan and provide service providers with religious and cultural competency training.

**23**

Families Helped
