

PROJECT NARRATIVE

Designed to be the gateway to Lauderhill, in the center of Broward County, The Hill project heralds a unique opportunity for urban development, cultural enrichment, living, dining and entertainment. Adjacent to this strategic location is the renowned Broward Center for Performing Arts, which further amplifies the cultural richness of the area.

The Hill will benefit from its proximity to Cinema City, the high-tech content creation campus being developed at the former Wingate site less than a mile away. Acting as a crucial support system for Cinema City, The Hill is set to cater to the increased demand for hotel, residential, and dining opportunities spurred by the growth of Cinema City.

The development of The Hill will not only complement the growth of Cinema City but also contribute to shaping a dynamic community. This harmonious relationship between The Hill and Cinema City will result in a vibrant, culturally rich hub, creating a pathway for a thriving future for the City of Lauderhill.

1975 Aerial view of Lauderhill Mall

1960s - 1970s

Established in 1959, the City of Lauderdale began as a small community of approximately 300 residents. Thousands of acres in early Lauderhill were lands full of grazing cows that produced fresh milk for the widely known dairy.

The significant population boom, with many retirees moving to the area, led to the construction of several retirement communities and assisted living facilities. In the 1970s, the city became more diverse with an influx of African American and Caribbean American residents.

1981 Inverrary Country Club

1980s - 1990s

During the 1980s, Lauderhill experienced a period of economic growth, with the construction of several shopping centers and commercial buildings. The city also began to focus on improving its infrastructure, including the construction of new roads and the renovation of existing buildings.

In the 1990s, Lauderhill continued to grow and develop, with the establishment of several community organizations and the opening of new schools.

2020 Central Broward Park and Broward County Stadium

2000s - present

In recent years, Lauderhill has continued to experience growth and development, with the addition of new parks, community centers, and other amenities. Today, the city is a thriving community with a diverse population and a strong economy.
