Yes No

Why are you interested in serving on a board? If you have not attached a resume, please describe any qualifications, skills, and abilities you possess that would directly benefit this board.

I am interested in serving on this board because I care deeply about the safety and well-being of the community. As a resident, I have a strong interest in improving key areas such as lighting, security, and overall living conditions. I would like to contribute my experience and perspective to help enhance the quality of life for all residents and support positive changes in the neighborhood. In addition, I am a civil engineer with many years of experience working in both Iraq and Denmark. I also served as a board chairman for nine years in one of the largest housing organizations in Denmark, which has given me valuable experience in community management, planning, and decision-making. Currently, I am also an active member of the residential committee in my community, which allows me to stay closely involved in addressing local issues and contributing to improvements.
