Request Action:

City Commission to accept the Quit Claim Deed from the South Florida Water Management District to the transfer land located along the east boundary of the Florida Turnpike to the City of Lauderhill.

Need:

These parcels will assist the City in designing a storm water improvement solution for the eastern part of the City.

Summary Explanation/ Background:

The City is seeking ownership of these parcels to begin a storm water infrastructure improvement project on either side of the Florida Turnpike. After the last 1-1,000 Year Flood event, we discovered some deficiencies in the existing system and would like to invest in a drainage improvement for the surrounding area. These parcels will be used to install storm water infrastructure near 51st.
