IV. PLANNING ANALYSIS

As stipulated in the Land Development Regulations, Article IV, Section 4.6, Standards for Approval, The Planning and Development Division has reviewed the proposed request pursuant to the following special exception considerations:

1. The effect of such use on surrounding properties.
2. The suitability of the use in regard to its location, site characteristics, and intended purpose.
3. Access, traffic generation and road capacities.
4. Economic benefits or liabilities.
5. Demands on utilities, community facilities, and public services.
6. Compliance with the Comprehensive Land Use Plans for Broward County and/or the City of Lauderhill.
7. Factors relating to safety, health, and general public welfare.

The owner of Sherban Spine Institute, Ross Sherban, is a Board-Certified Orthopedic Spine Surgeon intends to provide consultation to patients that are having spine issues. There will be a specialized focus on minimally invasive spinal decompression, cervical disc replacements and cervical and lumbar surgery. Although some procedures may require a medical prescription, there will be no dispensing of controlled medication from the office building. Based upon its review, staff finds that the proposed use is consistent with all of the above considerations. As such, staff recommends approval of the special exception request.

LDR Article III, Sections 2.3 and 2.4., and Schedule B. respectively address permitted and special exception uses. The LDR classifies a Medical Office with Controlled Substance Provider, which is allowed in the General Commercial (CG) zoning district as a special exception use.

1. **The effect of such use on surrounding properties:** The property is zoned General Commercial (CG) on the City of Lauderhill Zoning Map and located along W Commercial Blvd near the SE corner of NW 70th Ave and W. Commercial Blvd. The Applicant is proposing to operate a medical office, which includes a medical provider authorized to prescribe controlled substances. City of Lauderhill records show that there have been various medical offices located within the subject office plaza since 1985. Staff does not anticipate adverse effects to the surrounding units within the office plaza. As such, Staff concludes that this is an appropriate location for the proposed use as it pertains to the use's effect on the surrounding properties.
2. **The suitability of the use in regards to its location, site characteristics, and intended purpose and access:** The proposed medical office, which includes a medical provider authorized to prescribe controlled substances is located along Commercial Blvd (56th St) which is a major thoroughfare, between NW 70th Ave (Rev Herron Ave) and University Dr. The intended purpose is to provide a service where the immediate community can receive surgical and non-surgical spinal care of their choice. Since this property has included various medical offices since at least 1985, Staff finds that the use is suitable in regard to location, characteristics and purpose.

3. **Access, traffic generation and road capacities:** Staff finds that there is existing access along W Commercial Blvd. The proposed Use will continue to exist with the same square footage as the prior office and is not proposing any changes to the site. As such, Staff concludes the use conforms to this criteria as the intensity of the use will remain the same in regards to access, traffic generation and road capacities.
4. **Economic benefits or liabilities:** Staff concludes that the proposed Medical Office provide both direct and indirect economic benefits. The direct benefits are the additional jobs within the City of Lauderdale. An additional benefit is the collected sales tax and local business receipt tax. The indirect economic benefits could include sales taxes collected due to employee expenditures within the City. The economic liabilities would include the continued use of public services.
5. **Demands on utilities, community facilities, and public services:** Staff finds that the medical office, which includes a medical provider authorized to prescribe controlled substance is taking over a previously operated business office and that the responsible operation of the medical office should generate a similar demand to other medical offices on utilities and community facilities.
6. **Compliance with the Comprehensive Land Use Plans for Broward County and/or the City of Lauderdale:** Staff finds that the medical office, which includes a medical provider authorized to prescribe controlled substances is a commercial use. Both the City and the County plans allow for a medical office, which includes a medical provider authorized to prescribe controlled substances use within a commercial corridor. Staff finds that the proposed use is in conformance with the City and County Comprehensive plans.
7. **Factors relating to safety, health, and general public welfare:** Staff acknowledges that the medical office, which includes a medical provider authorized to prescribe controlled substances can adversely impact the public safety, health, and general welfare unless such adverse impacts are substantially mitigated.
