Lauderhill FL 33313

Subject: **Sole Source Letter**

Yolanda Williams,

Smith & Loveless, Inc.® is the manufacturer of a full line of wastewater pumping, headwork, screening, and treatment equipment. Smith & Loveless only sells its proprietary equipment and proprietary parts directly to end-users or through sole-source Representatives.

Smith & Loveless has a long history with even the first S&L pump station sold in 1946 still in operation. Because of this long equipment life cycle, Smith & Loveless spends large portions of its resources in not only providing spare parts but maintaining the knowledge of which parts are now used for every piece of S&L equipment. Smith & Loveless has developed proprietary parts, which can only be purchased with records of the part information kept by S&L thru a unique S&L serial number system.

This letter is to certify that Smith & Loveless, Inc. is the sole source for its new equipment, retrofit equipment, and parts and you can reach S&L by calling **800-922-9048**.

Dear Ms. Williams:

Please be advised that Thompson Pump & Manufacturing Company is a **SOLE SOURCE** provider for purchasing spare parts and accessories and completing service and repair to the pumps that are manufactured by our company. This assures that the equipment that is serviced or repaired or spare parts purchased and installed will continue to meet current Thompson Pump specifications related to equipment performance and operation. We would like to illustrate some specific key characteristics that will allow you to receive the best possible value for these **SOLE SOURCE** parts and services:

- **Direct from the Manufacturer:** As an ISO9001:2008 company, you and your team have the reliability of obtaining parts and services of the highest possible quality from Thompson Pump. All parts are specific to how the pumps were manufactured. This makes Thompson Pump superior to other suppliers regarding product knowledge and logistical efficiency.
- **Design/Production Archives:** This allows Thompson Pump quicker access to up-to-date information assuring that pumps meet current specifications regarding performance, operation, and parts updates needed for the pump model. This minimizes delivery times, minimizing purchasing costs, and errors in communication. This is a value Thompson Pump can provide, and others cannot.
- **Competitive Parts Pricing:** The current parts pricing structure for you is the lowest in the industry for the quality obtained. Due to Thompson Pump being the manufacturer of the products requiring service, the parts and labor can be quoted from our baseline cost. This translates into additional savings for you that no other supplier can match.
- **Proven Performance and Value:** Your team has worked with Thompson Pump and has compiled an extensive track record of exceptional service. This will continue to be the best value for many years to come.

Thank you for your interest in Thompson Pump products and service, and feel free to contact us if you have any questions.

Sincerely,

Kelly Seliga
Controller

Yolanda Williams
City of Lauderhill Utilities Department

Dear Yolanda Williams

City of Lauderhill is requesting Knapheide Truck Equipment Company ("KTEC") to perform custom alterations to a new Knapheide body manufactured by The Knapheide Manufacturing Company ("Knapheide"). In order to preserve Knapheide's warranty on said body, a Knapheide distributor must perform any alteration or modification.

Per Miami City of Lauderhill, a sole source letter is required before KTEC can perform any of the requested custom alterations. This letter shall serve as confirmation that KTEC is the only south Florida Knapheide distributor.

If you have any questions, please contact Frank Cid at (305) 691-9280 or fcid@knapheide.com.

Sole Source Letter

October 1, 2023

City of Lauderhill
5581 W. Oakland Park Blvd
Lauderhill, FL 33313

Attn: Dan Oliva

Reference: Authorized Eaton Corporation – Sole Source Direct Sales and Service Provider

Eaton Corporation purchased the Westinghouse Distribution and Control Business Unit (DCBU) in 1994. This acquisition included all manufacturing operations and technology used by Westinghouse to manufacture and sell electrical distribution and control products. As the current manufacturer of Westinghouse and Cutler-Hammer distribution equipment, the current design and manufacturing information, and all current revisions and modifications to products, are held by Eaton Corporation.

Eaton Corporation created a new division in late 1997, now called the Eaton Engineering Services and Systems Division, in order to directly provide field engineering and service.

Today, pursuant to the agreements regarding the acquisition of the DCBU from Westinghouse in 1994, the only companies which are permitted to manufacture and sell electrical distribution equipment with an Eaton, Cutler-Hammer or Westinghouse trademark is Eaton Corporation. Eaton Electrical Services and Systems is the only engineering group which is authorized by the manufacturer to work on Eaton, Cutler-Hammer and Westinghouse electrical distribution products.

Our EESS engineers are available 7 days a week and can be reached by calling our office or our 24-hour hot line at (800) 498-2678. Included with this letter is a copy of our EESS -Technical Support and Service Rates in effect at this time along with Selling Policy 25-000. We offer a one-year warranty on all services and parts. If you have any questions regarding this information or requests for services please contact Andrew Raposo on his cell @ 410-349-6629 or feel free to contact me directly on my cell phone 954-914-3669.

We appreciate this opportunity to be of service to you. If you have any questions or comments please feel free to contact us at any time.

August 22th, 2023

To Whom It May Concern,

EPR Systems USA provides unique cloud-based NEMSIS and NFIRS compliant records management software solutions for Fire and EMS Agencies. All under a single database.

EPR's Fireworks software provides a turnkey, customizable, stand-alone solution specialized for Fire/EMS operations that provides unique features for public safety personnel in the field. The mobile solution works on any smart phone, tablet, or iPad (iOS or Android).

Proprietary to EPR is our direct Fire Marshall and EMS billing feature that brings data into Billing Solutions with no required effort from the customer. fully customizable Learning Management System that has built in educational content from Jones & Bartlett Learning as well as Dual Factor Authentication and SSO through Microsoft Azure.

EPR also provides all platform customization and report writing at no additional cost.

EPR's FireWorks Response Mode puts critical data at the responder's fingertips. Including built in Waze & Google navigation, ESRI Mapping, Pre-Plan data, Hydrant data, DOT Camera integration & much more. All of this data is available to all mutual aid partners through EPR's unique data sharing capabilities.

The FireWorks solution incorporates the latest state-of-the-art technology and best of breed features available on the market. Unique features to the FireWorks system include the ability to view a map from a birds-eye view of the incident or inspection right from your mobile device. The map view provides the ability to turn on the color-coded hydrant layer on the interactive map. This enables your first responders to see the location before they even arrive to the emergency. Color coded map views of properties according to Risk Assessment are also unique to EPR's solution.

EPR is proud Silver Partner with ESRI/ArcGIS allowing integration from agencies ArcGIS account as well as rest services.

FireWorks RMS also provides unique Business Intelligence tools that graphically display all incident data in interactive charts and graphs. The NFIRS Analytics and BI tool produces many of the reports required by the ISO for an audit as well as CFAI Accreditation reports. This unique tool provides a dynamic dashboard that enables you to click from a visual chart and drill down to the actual incident including any pictures that were taken on the scene.

Company Qualifications and Reputation:

EPR Systems is an international software company, in business for 22 years, providing innovative municipal solutions. Our customer service is unparalleled and is our #1 priority.

EPR is a source for these all-in-one management features.

- SAAS model; hosted in AWS Cloud
- Built-in ISO and Accreditation Reports
- Integration with other vendors including CAD
- Mobile version accessible from any tablet, iPad, smart phone (iOS or Android)
- NEMSIS 3.4.0 compliant ePCR reporting module
- Driver's license scanning into ePCR
- CAD alerts/incident address linked directly to completed Preplans
- Interface to third-party cloud-based service for Fire personnel scheduling
- Inspection module based on NFPA guidelines making reporting simple, and efficient.
- Partners with ICC and NFPA making code sets available within the platform
- OVAP scoring to identify RISK assessment of properties within your jurisdiction
- Electronic reports can be sent from the desktop, or from the field to the business owner
- Complete hydrant testing module, including flow-tests, calculations, interactive map view, and navigation.
- Mobile inventory module for regular checks of vehicles, gear and other locations
- Color-coded hydrant overlay on map allows fire personnel to add hydrants or easily mark hydrants out of service
- Graphic report generator for user defined reports
- Mobile Pre-plan system with interactive mapping and navigation
- NFIRS 5.0 compatible
- Property and occupancy module
- Upload and attach photos and other file types
- US National Grid map overlay
- County boundaries overlay
- False Fire Alarm reporting and billing
- Heat Maps by Incident and Response times
- Dynamic mobile Business Intelligence module
- Hydrants and Pre-Plans can be assigned and then automatically rolled to the next shift
- ESRI integration from both an ArcGIS account as well as a rest service
- Two-factor authentication
- SSO with Microsoft Azure
- Hydrant and Pre-Plan sharing during Response
- Sharing response personnel between agencies in NFIRS report
- County-Wide user management console
- Integrated NFIRS/NEMSIS reports
- Integrated Hydrants, Pre-Plans, Inspections, Incidents
- Cameo Integration
- Hospital Portal for ePCR access by destination facility
- Internal Messaging
- Scheduled reports by email
- Personal Inventory Module
- Proprietary LMS System
- Fire/ALS/BLS/HR training content provided by the Public Safety Group.

Our one stop shop approach to NFIRS, NEMSIS and Education reporting as well as robust modules for inspections, preplans, hydrant, Learning Management and analytics makes FireWorks software a innovative solution for today's modern Fire Service. Our cloud-based software hosted in the secure Amazon Web Services Cloud allows for access and functionality across all smart devices and popular browsers.

Vice-President

August 22, 2023

Deputy Chief Jeff Levy
City of Lauderdale Fire Rescue
1980 NW 56 Avenue
Lauderhill, FL 33313

Dear Deputy Chief Levy:

This letter is being sent in response to your request regarding the Opticom™ priority control system. Opticom is manufactured by Global Traffic Technologies, LLC (GTT). Since 1968, Opticom has been the standard in priority control, now totaling more than 3,100 customers, 70,000+ intersections and 70,000+ vehicles worldwide. Worth noting, GTT's Opticom system is used in 41 of the 50 largest U.S. cities, amongst many other deployments in Canada, Europe, Asia-Pacific and the Middle-East.

GTT invests heavily in research and development, to ensure its customers always receive the best value and most feature-rich solutions when buying priority control. This effort has led to more than 100 patents, either granted or in-process.

While the topic of a mixed system sometimes emerges, please note that GTT designs, develops and tests each Opticom component as part of a "matched component system." This means that "mixing" non-Opticom components raises concerns, including:

- Security is accomplished through Opticom's proprietary design, which prevents unauthorized use of the system. Mixing components would significantly reduce or even eliminate the security measures GTT has built into the Opticom solution
- Mutual aid to and/or from surrounding communities depends on compatibility amongst signal priority solutions. The use of Opticom components with non-Opticom components has not been designed for or tested by GTT
- Proper testing of compatibility would require inclusion of all of the potential operating scenarios (temperature, humidity, electrical and accelerated life) and third-parties. Further, testing would need to be repeated each time an Opticom or third-party component was updated, making testing impractical. While the Opticom matched component system is guaranteed, mixing Opticom components with non-Opticom

.....

GLOBAL TRAFFIC TECHNOLOGIES

- components voids the warranty of the connected Opticom components and transfers the liability of any such incompatibility from the manufacturer to the customer
- The Opticom model 764 phase selector is not compatible with other brands' GPS emitters
 - The Opticom Central Management Software is a proprietary software program for the Opticom system that is not compatible with any other vendor's equipment or software

For the above reasons, GTT strongly recommends keeping the Opticom system whole.

In the state of Florida, Transportation Control Systems (TCS) is the authorized dealer for GTT. There are currently no other authorized dealers of GTT's products in Florida and GTT is the sole-source provider/manufacture of Opticom products.

Please contact GTT or TCS if you have further questions or if you require additional detail. GTT and/or TCS will also provide a list of references if you'd like to talk with others about this topic.

Sincerely,

A handwritten signature in black ink, appearing to read 'D. Dolsky', with a long horizontal flourish extending to the right.

Daniel C. Dolsky

RE: Sole Source Document

To whom it may concern:

This letter is to indicate that Dallas Nickels, D.O.T. Hydro-Testing Supervisor, Summit Fire & Security LLC DOT retester identification number A239, states that Summit Fire & Security LLC is the sole source of bulk service of fire department cylinders in southeast Florida and is recommended by the SCBA cylinder manufacturer, LuxferUSA to perform this service.

Dallas Nickels
PH: 954-566-5430
4009 NE 6th Ave
Oakland Park, FL 33441

Should you have any questions, please feel free to contact me directly.

Sincerely,

A handwritten signature in black ink, appearing to read "Neil Cooper", with a long horizontal flourish extending to the right.

Neil Cooper
Branch Manager

August 28, 2023

Re: Fire Station Alerting

The Fire Station Alerting (FSA) is part of the System and Services Agreement between Broward County Board of Commission and Keylite Power & Lighting Corp (Keylite). This was a competitive procurement **RFP R1426611P1**, awarded to Keylite and executed October 10, 2017. The agreement is current and allows for municipalities in Broward County to piggy-back for equipment and services.

Additionally, Keylite is the sole-integrator and service provider for the Broward County Fire Station Alerting FireNet Network. The FireNet Network provides the connectivity of all municipal fire stations alerting to the Broward County Regional Dispatch Centers.

If you should need any further information regarding the agreement, sole-source integration, and service provider, please don't hesitate to contact me.

Sincerely,

Troy Bailey,
Vice President, FSA Operations

To Whom It May Concern:

This letter sets forth justification for Lexipol, LLC as a sole source provider of risk management tools for public safety organizations. Lexipol offers subscription-based policy management and training services that are purchased by public safety and local government organizations directly from Lexipol.

DEPARTMENT NEED

Your agency or department requires a policy management solution that is compliant with applicable laws and regulations, implemented by qualified professionals, customized to fit your needs, and includes scenario-based daily training bulletins with tests to reinforce and demonstrate policy comprehension. The system must be readily accessible online and via mobile devices, provide real-time policy updates, and include a supplemental manual for department-specific procedural content.

LEXIPOL PRODUCT DETAILS

Lexipol's comprehensive policy management solution is the only one to provide all of the above. A Lexipol subscription provides access to substantive copyrighted content on a proprietary, web-based knowledge management system that enables issuance of department-specific policy, captures electronic signatures for compliance, and assigns training to reinforce comprehension and application. Lexipol's policy solution allows each agency or department to increase policy compliance and personnel safety while improving the services provided to the communities they serve.

By working with Lexipol, each agency and department takes advantage of our unrivaled network of subject matter experts and legal resources to implement policy management solutions. Due to the increasing complexity of evolving laws governing public safety organizations, hiring resources that carry the requisite legal expertise in this subject matter has proven cost prohibitive on a per-department basis.

JUSTIFICATION FOR SOLE SOURCE AWARD

As thousands of other agencies and departments have determined through comprehensive review and due diligence, no other platform provides a comprehensive policy management solution suite like Lexipol. Others may staff personnel who help write and review policy content but lack the necessary software platform to track ongoing personnel compliance and knowledge management. Alternatively, they may provide a platform to house content but do not offer training and updates to ensure retention of vital material. Finally, many lack tracking and reporting altogether.

Only Lexipol offers a comprehensive policy solution that meets all department requirements, making it the sole source for your needs.

If you have any questions or need assistance, please feel free to contact us. We appreciate the opportunity to serve and support you.

Sincerely,

Jan Roos
Vice President and General Counsel

RE: ONSOLVE, LLC ("ONSOLVE") CodeRED® Service

Dear City of Lauderdale, FL.,

The CodeRED Emergency Notification System allows our clients to deliver high-speed, customized mass notifications. The CodeRED system utilizes many features that individually and in combination make ONSOLVE and CodeRED a unique sole provider. No other service provider may sell or license the CodeRED system, which is solely owned and operated by ONSOLVE. Below are several of the unique features of CodeRED, a service of ONSOLVE, which cannot be duplicated by any other system:

Data

ONSOLVE provides our clients with initial geo-coded calling data for immediate use as the foundation of your database, to ensure an expedient implementation process. Data is acquired through various commercial sources and includes residential and business data. We source our data from the best providers, geocode the data ourselves, complete all updates without requiring client involvement, perform extensive de-duplication processes, integrate all 9-1-1 data while scrubbing the records, geocode community opt-in entries on the fly, and clean all data. Simply put, CodeRED features more records and more highly accurate data, ensuring more successful connection rates.

Simultaneous Notifications / True Blast Dialing

In order to maximize the speed of each notification, all contacts are alerted simultaneously for each type of launch. We have found that creating an infrastructure robust enough to handle simultaneous launches ensures emergency messages reach their intended audience as quickly as possible.

RealCall® Messaging (*Unique process, Patented U.S. Patent 6324262 B1*)

ONSOLVE is the only emergency notification system provider authorized to utilize RealCall® patented technology. This proprietary functionality enables CodeRED to deliver accurate messages in their entirety to answering machines and other voicemail devices without looping or repeating the message. RealCall® has been proven to maximize the efficiency of the local telephone infrastructure when telephone circuits are in high demand. Other technologies leave partial, truncated or repeated messages—wasting valuable telephone circuit resources when they are most needed.

Universal ANI® Caller Identification *(Unique ability and technology)*

CodeRED utilizes a unique Universal ANI®, which is a toll-free call back number for residents to call in order to hear the last message delivered to their phone number. This technology optimizes telephone circuit demand and reduces the resources needed to successfully complete each notification.

Validata® Process *(Unique ability and technology)*

CodeRED leverages ONSOLVE's unique Validata® telephone number validation process to confirm every number in the customer's database. This proprietary methodology is used to verify the validity of entries and identify addresses lacking valid phone numbers.

CodeRED Weather Warning® *(Unique ability and technology)*

CodeRED offers the option to add CodeRED Weather Warning®, which delivers automated severe weather warnings to residents in the direct path of a storm within seconds of the alert being issued by the National Weather Service. Weather Warning is the only early warning system available to utilize the NOAA Storm Based Warning system's polygon data to pinpoint a storm and automatically call those who will be impacted first.

CodeRED® Mobile Alert App *(Unique ability and technology)*

The CodeRED Mobile Alert app is used to maximize the reach of any given notification. Utilizing advanced geo-aware technology, the app provides an additional location-based method for clients to deliver CodeRED-initiated notifications. The CodeRED Mobile Alert app, which is unique to ONSOLVE, allows clients to reach not only residents, but also visitors passing through the area. It also serves to protect citizens when they travel outside their primary coverage area.

Full IPAWS Capabilities *(Unique ability and technology)*

CodeRED includes a fully functional Message Alert Origination application for launching Integrated Public Alert and Warning System (IPAWS) messages in support of FEMA's program. Unique to CodeRED, this function is activated directly within the same system interface as all other notification methods to streamline the creation of messages disseminated to the public.

ONSOLVE Launcher App *(Unique ability and technology)*

CodeRED provides a stand-alone app which allows authorized system users to send notifications directly from their smartphone or tablet when away from their office. Within seconds users can

create and send notifications to contacts within specific geo-targeted areas without requiring the use of a computer; providing enhanced real-time situational awareness and updates. As you can see from the list of unique features above, City of Wilton Manors has multiple reasons to sole source ONSOLVE's CodeRED service. Many of our clients are able to immediately purchase the system through the sole-source method by leveraging the totality of these and other benefits. Please feel free to contact me if you have any questions.

Sincerely,

Kelly Hiller

To Whom it may Concern:

The purpose of this letter is to provide justification of a sole source licensing by the Lauderhill Fire Department for a planning and communications platform called ReadyOp, a service offering owned and offered exclusively by ReadyOp Communications, Inc. This licensing is justified on a sole source basis as no other program offers the complete package of services as listed below.

The licensing on a sole source basis with ReadyOp Communications is justified due to the following features and capabilities can be included in a single, secure website for the State's use:

1. The ReadyOp application is currently the only application on the market that we are aware of that combines the following capabilities into a single application:
 - a. ReadyOp is a web-based program that can be used to template and prepare for planned events as well as incidents, emergencies and daily operations for single and multiple agencies.
 - b. ReadyOp provides six ways to communicate (phone, radio, text, email, alerts, secure video and secure voice) with personnel in multiple organizations within a single desktop display.
 - c. ReadyOp enables users to securely store, share and view photographs, maps, rosters and other files with other approved users quickly and from any location with Internet access.
 - d. ReadyOp enables users to design and use forms for reporting, checklists, status updates, equipment and training requests, asset management and many more activities.
2. ReadyOp includes a roster for storing personnel names, contact information, organization and special tags for fast recall and communication. This will provide personnel to quickly locate and communicate with individuals with special training and capabilities.
3. ReadyOp includes the ability for storing information on assets which may be needed in an incident response or emergency, including the name of the person, organization and contact information.
4. There is no requirement to purchase any hardware to support the use of ReadyOp except a minor investment for each radio talk group to be included for communication.

The ReadyOp service is unique in that no other program offers the combination of resource access, security, information and communications. Approving this sole source purchase will enhance the planning and response capabilities of the City of Lauderhill and the Lauderhill Fire Department.

Please contact our company at 813 289-7620 for additional information if needed. Our website is www.ReadyOp.com.

Marie Aversa
Administrative Clerk
City of Lauderhill Fire Resecue

RE: Sole Source Letter
REV RTC, Inc. d/b/a Hallmark RTC

Mz. Aversa

Please accept this letter as confirmation that REV RTC, Inc. is the sole source provider for E-ONE, Spartan, and Ferrara fire apparatus and Road Rescue and Wheeled Coach ambulance sales, E-ONE, Spartan, Ferrara, Road Rescue and Wheeled Coach parts, and warranty parts and warranty service for the City of Lauderhill.

We appreciate your continued faith in, and support of these product lines and we look forward to continuing to provide the finest emergency response vehicles as you protect and serve your citizens and visitors.

REV RTC, Inc. reserves the right to withdraw this sole source letter upon written notice to the City of Lauderhill.

Thank you in advance for your review and consideration. As always, should you have any additional questions or needs, please contact me at your convenience.

Best Regards,

A handwritten signature in black ink, appearing to read 'Mike Mowry'.

March 13, 2023

Dear Customer:

The fire and emergency service industry continues to see challenges related to inflation, supply chain delays and increases in operating expenses. It seems our financial environment is changing daily. Ten-8 continues to work with our vendor partners to create strategies and solve problems to meet the needs of our customers. Ten-8 remains grateful for the ongoing trust that you place in our team and the opportunity to serve your department and community.

Despite the ongoing challenges, Ten-8 remains committed to investing in our service network and offerings. With lengthened lead times, it is critical that we maintain adequate facilities and resources to support aging apparatus. The need to hire, retain, and train staff to meet the very specialized demands of the industry remains our highest priority. To keep pace with inflationary increases, Ten-8 will need to adjust our current labor rates. To minimize the impact to local budget cycles, we are communicating the following rate change to be effective on October 1, 2023.

Shop Labor rate - \$140/ Hour

Mobile Labor rate - \$160/ Hour (Travel and onsite time)

*****Rate increases do not apply to any fixed price contracts.***

*****Any service started prior to October 1, 2023 will be billed at the prevailing rate when the work was started.***

Thank you for your understanding and continued patronage. We remain committed to providing you with the best service available in the industry.

Please feel free to contact me at any time with any questions or concerns.
