### Text of Legislative File 25R-6363

RESOLUTION NO. 25R-09-188: A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF LAUDERHILL ADOPTING THE 2020 TEN-YEAR WATER SUPPLY FACILITIES WORK PLAN CONSISTENT WITH THE CITY OF LAUDERHILL'S COMPREHENSIVE PLAN'S CONSERVATION ELEMENT, FUTURE LAND USE ELEMENT, AND INTERGOVERNMENTAL COORDINATION ELEMENTS, PURSUANT TO FLORIDA STATUTES, SECTION 163.3177; PROVIDING FOR AN EFFECTIVE DATE (REQUESTED BY CITY MANAGER, KENNIE HOBBS, JR.).

**Request Action:**

A Resolution of the City Commission adopting the 2020 Ten-Year Water Supply Facilities Work Plan and associated documentation.

**Need Summary Explanation/ Background:**

In 2020 as a part of the regular Comprehensive Plan update the State of Florida approved the Conservation Element addressing the need for an updated Ten-year Water Supply Plan to be approved through the SFWMD. Water Demand Forecast and Water Supply Adequacy compares water supply and treatment capacity to the water demand forecast. Based on projections, it appears that the City has sufficient water capacity to satisfy demand through the end of August 2030, consistent with the permit. Subsequent to this, the City's Ten-year Water Supply Facilities Work Plan must be adopted. The requirement to prepare and implement work plans is a State of Florida mandate that impacts all water providers. Due to the reduction of volume available from the Biscayne aquifer, the City pursued an alternative water supply sufficient to meet future need.

**Cost Summary/ Fiscal Impact:**

It is estimated the projects recommended in the Ten-year Water Supply Facilities Work Plan will cost \$100 million over the next 5 years.

**Attachments:**

A. Proposed 2020 Ten-year Water Supply Plan and South Florida Regional Planning Council and SFWMD letters.
