The next item on the agenda is the Bid Results for 2024-011. There were (4) Bidders: Sunshine Services, M&M Asphalt, The Paving Lady & R&D Paving. Representatives from 3 of the 4 companies are present; everyone except R&D Paving. The Representatives each introduce themselves. The only company that is familiar to the SND Board is Sunshine Services who was selected as the vendor for the previous phase of Roadway Renovations in the Community. The Board Members express their concerns & dissatisfaction with working with the Representative/Liaison Bill Leon from Sunshine Services. The Company Reps for Sunshine who are in attendance apologize for their experience with Bill Leon & explain that he is no longer with their company. Sunshine advises that they would be willing to discuss the matter further with the Manors Reps outside a SND Meeting as the work that they are dissatisfied with was arranged with their regular HOA Funds (outside the SND Work). The City's Finance Reps remind everyone to stay on track with the agenda discussion/RFP 2024-011. The Manors Budget

Discussion is looped into this RFP Discussion so everyone is aware the funds that are currently available as well as what would be available starting October 1st, 2024 depending on how the SND Board would like to assess themselves for Fiscal Year (FY) 2025. Then, the SND Board Members are polled to rank each of the (4) vendors; this resulted in all (5) SND Board Members ranking M&M Asphalt= 1, Sunshine Services= 2, The Paving Lady= 3 & R&D Paving= 4.

The SND Board Members evaluate the available funds & whether they'd like to start assessing Condo #12; this would be a new assessment & the Finance Reps explain that they would need to start the process now if they'd like to proceed with the new assessment for Condo #12. With that, Horace Murphy makes a motion for FY 2025's Assessment for Condo 1, 11 & 12 to be \$500 + 0 mils; Chair Liz Turner seconds this motion. There is further discussion regarding starting the process with Condo 12- the SND Board shifts their focus to finishing the work for Condo 1 & assessing Condo 11 again so the renovations in their parking areas can commence (Condo 11 does not have the necessary funds to proceed with their work this FY 2024).
