## If yes, which board? How many years?

---

N/A

### Why are you interested in serving on a board? If you have not attached a resume, please describe any qualifications, skills, and abilities you possess that would directly benefit this board.

---

I am interested in serving on the Youth Advisory Board because I have a genuine passion for economic empowerment, entrepreneurship, and creating real pathways for young people to thrive. I have lived in the Lauderhill community for the past seven years, and during that time I have grown deeply connected to the city, its families, and its future. Serving on this board would allow me to give back in a meaningful way to a community I truly love and believe in. Professionally, I am a social entrepreneur with hands on experience in business development, job creation, workforce training, and organizational growth, and I'm a graduate of Lauderhill Shines Cohort 9. I am the founder and CEO of Buzz International Network Communication Center (Buzz INCC), a global business process outsourcing company that I established in 2019 and successfully scaled to over 300 employees, even while operating in challenging environments. Through this work, I have helped create sustainable employment opportunities, implemented training systems, and built scalable operations that support long term economic growth. I also have experience in real estate development, affordable housing, and workflow optimization, with a strong focus on teaching self sufficiency and entrepreneurship rather than dependency. I believe these skills translate directly to supporting Lauderhill's youth by helping shape programs around financial literacy, entrepreneurship, workforce readiness, and career development. I bring a solutions oriented mindset, global perspective, and a strong belief in mentorship meeting young people where they are and helping them build the skills they need to succeed. I am excited about the opportunity to contribute my experience, energy, and vision to Lauderhill and to work collaboratively with city leaders to help empower the next generation of youth to grow, lead, and thrive.

## ABOUT ME

Born on September 12, 1988, in Miami, Florida, Tarik Hasani Muhammad emerged as a dynamic social entrepreneur with a global vision. From his early years, Tarik demonstrated an innate drive to create positive change, which led him to establish various ventures across continents.

Inspired by the teachings of the Most Honorable Elijah Muhammad, Tarik's journey began in the USA, where he laid the groundwork for his entrepreneurial endeavors. With a passion for community development, he expanded his ventures to Haiti, addressing socio-economic challenges through innovative solutions.

Operating in Haiti, one of the most difficult countries in the world, Tarik successfully overcame political instability, economic challenges, and infrastructure limitations by building a strong operational structure for his businesses. Since 2019, Buzz International Network Communication Center S.A. (Buzz INCC) has been running efficiently, despite the country's adversities. To ensure uninterrupted 24/7 operations, he implemented a renewable energy system, allowing the company to function independently of Haiti's often unreliable power grid.

Tarik's impact extended beyond Haiti, as he ventured into the Dominican Republic and Africa, championing pan-Africanist ideals of solidarity and progress. His commitment to economic empowerment and cultural exchange resonated throughout his initiatives, leaving a lasting legacy of collaboration and growth.

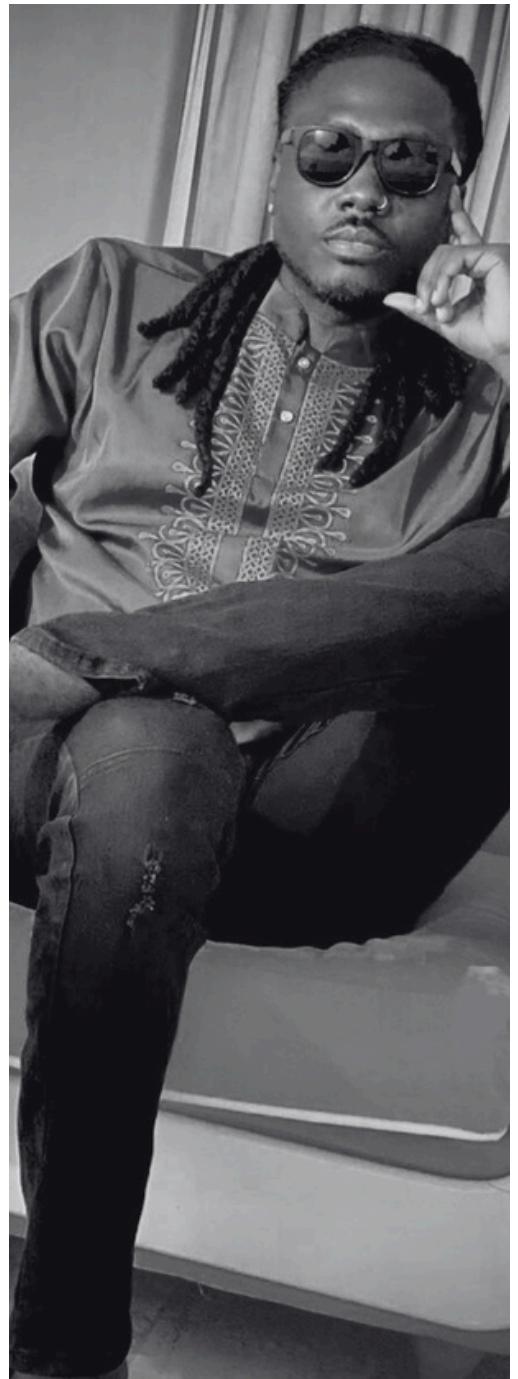

## ABOUT ME

Despite his busy schedule, Tarik prioritized his role as a father, raising six children with values of integrity and resilience.

One of his most notable achievements includes founding and scaling Buzz International Network Communication Center S.A. (Buzz INCC) into a thriving call center with over 300+ employees, serving prestigious clients such as the World Food Programme, IMO, Telus, Natcom, Wyncell, and many more. Through Buzz INCC, he has provided countless job opportunities and strengthened economic stability in the regions he serves.

Beyond telecommunications, Tarik has a strong background in real estate, with hands-on experience in building tiny homes and developing affordable living solutions. His expertise in business structuring, workflow optimization, automation, delegation, and scaling organizations has made him a sought-after leader in multiple industries.

A firm believer in teaching a man how to fish instead of simply giving him the fish, Tarik prioritizes self-sustainability and economic independence in every initiative he undertakes. His entrepreneurial portfolio includes luxury transportation, real estate, and community-driven ventures, all rooted in his mission to create long-term impact and empowerment for Black communities worldwide.
